

GREEN KERNEL PISTACHIO

GREEN KERNEL PISTACHIO

Green Kernel Pistachios are highly valued for their use in confectionery and other industries. Produced by harvesting pistachios while still raw (Kaal), they offer the same quality as regular Kernel Pistachios but are more expensive due to their intricate processing. The greener the kernels, the higher their value. Iranian Green Kernels are considered a luxury food ingredient and are widely used in pastries, chocolates, ice cream, and even sausages and ham
